In the Beehive tradition —

In this, our first post-war book, we take great pleasure in combining for you two outstanding achievements of our continued research which will add to your knitting pleasure —

* Beehive Patonised (shrink-resist) Wools and

* the Beehive Aladdin Replaceable Heel

* Patonising gives to wool an amazing resistance to shrinking — truly a gift of untold value to all our knitting friends!

* The Beehive Aladdin Replaceable Heel eliminates tedious hours of darning — it's easier to knit in a new heel. You have always wanted to replace a worn out heel without unravelling the foot and our Style Department have solved this problem for you.

All the socks in this new Beehive Sock Book are worked with the Aladdin Heel and we feel sure you will welcome this simple method of replacing "New Heels For Old".

THE *Beehive* ALADDIN HEEL

YOU CAN REPLACE A WORN OUT HEEL *Without* UNRAVELLING THE FOOT

TO KNIT THE NEW HEEL

into the Sock When Replacing a Worn Out Heel

Unpick the sewn instep seams. Pull the coloured thread out of the knitted portion. This releases sts. in the foot and sts. of the heel. Put the foot sts. on a spare needle. (If any difficulty is experienced pulling the coloured thread, unpick it with a needle). Unravel the heel sts. to the beginning of the heel sts. (If any difficulty is experienced in unravelling the wool, cut off the heel flap a few rows above the beginning of the heel and unravel the remaining few rows). Pick up these heel sts. on 2 needles. See Picture 3. Slip the heel sts. onto 1 needle and work the heel as given originally in the sock instruction. Graft these sts. to the sts. left on the spare needle. See Picture 4. If a coloured thread is used for the Grafting you may replace the heel again in the same manner. Re-sew the instep seams at each side of the heel flap. See Pictures 1 and 2. Press all seams.

TO KNIT THE NEW TOE

into the Sock When Replacing a Worn Out Toe

Pull out or unpick the coloured thread to release the sts. for unravelling. (If any difficulty is experienced in unravelling the wool, cut off the toe a few rows above the beginning of the shaping and unravel the remaining few rows.) Arrange the sts. on the needles as they were originally and reknit the toe as before, grafting with coloured wool. For Grafting, see below.

TO SHAPE AND GRAFT TOE

To Shape Toe:

1st round: 1st needle: Knit to last 3 sts. K2tog. K1. 2nd needle: K1. Sl.1. K1. p.s.s.o. Knit to last 3 sts. K2tog. K1. 3rd needle: K1. Sl.1. K1. p.s.s.o. Knit to end of needle. 2nd round: Knit across each needle. Repeat these 2 rounds to 30 sts. in round. Knit the sts. of 1st. needle onto end of 3rd needle. Break wool. Using a strand of (A) wool 12 ins. long, thread through a wool needle and graft toe. For Grafting, see opposite.

To Graft Toe:

*Inserting the wool needle as if for knitting into 1st. st. of front needle, draw it through the st. and slip the latter off the needle; inserting the needle, as if for purling into 2nd st. of front needle, draw wool through and let the st. remain on the needle; taking the wool under front needle and inserting the wool needle, as if for purling, into 1st. st. of back needle, draw the wool through this st. and slip the latter off the needle; inserting the needle, as if for knitting, into the 2nd st. of back needle, draw the wool through and let the st. remain on the needle; bring the wool forward under the needle and repeat from * until all sts. are worked off, darning in the end of wool securely.

TO FINISH HEEL AND MAKE UP SOCK

To Finish Heel:

Using the (A) wool, sewing on the wrong side, sew up each side of heel flap evenly to the sts. cast on at the instep, see Picture 1 on page 27. Break wool, darning in the ends securely. Heel is now complete, see Picture 2 on page 27.

To Finish Sock:

Darn in all ends. Sew side and back seams (if sock has been worked on two needles). Put socks on wooden sock stretchers of correct size. Press with damp towel and hot iron, being careful not to flatten ribbing. Leave flat until dry.

After washing always dry flat on wooden sock stretchers.

THE *Beehive* ALADDIN HEEL

1 Heel with instep unsewn, ready for sewing and showing ends of coloured thread.

2 Heel complete after sewing instep stitches and darning ends of coloured thread.

3 Heel unravelled and stitches picked up ready to put onto one needle for new heel to be knitted.

4 New heel completed ready for grafting before sewing as in picture one.

BEEHIVE "ALADDIN" HEEL. By making the replacement of heels in socks a simple and practical operation, Patons & Baldwins Limited are glad to offer this contribution toward your personal economy. An application for patent has been filed and although Patons & Baldwins Limited welcome the use of this invention by persons knitting socks by hand with Patons & Baldwins' yarn, other persons should not use or imitate this invention without first obtaining a license in writing from Patons & Baldwins Limited.

COLOURED PATTERN KNITTING

It is necessary to use a separate ball of wool for each section in the pattern. Cast on the required number of sts. in each shade of wool according to pattern. Work in rows of plain and purl (plain smooth fabric) joining each section by twisting the colour to be used around, underneath, to the right of the colour just used.

General Information

CHECK THE TENSION

The garments in this book are worked to the exact tension given. They are closely knitted to insure a firm fabric that will wear better and keep its shape longer than a loosely knitted fabric. *Check your tension.* Before beginning your garment take the wool and needles specified. Cast on 20 stitches. Work 20 rows stocking stitch and compare with the tension given in the instructions. All given tension in Beehive instructions is measured over stocking stitch. If your tension is too loose try a size smaller needle. If your tension is too tight try a size larger needle.

Be sure to work to exact tension given if you want your garment to work to correct size.

To Press a Finished Garment

—for plain, smooth fabric. Place all knitted pieces on a thick pad wrong side out. Baste to shape and size desired being careful to keep the weave quite straight. Cover with a damp bath towel. Smooth **EVENLY** with a **WARM** iron. Remove towel and leave until dry.

For raised and fancy patterns. Baste into position and cover with a wet towel but **DO NOT PRESS**. Pat gently but firmly with the hand. Remove towel and leave until dry.

Use the Yarn the Pattern Calls For

Use only Patons and Baldwins yarns, and Beehive Knitting Needles for any of the garments in this book.

Buy the Quantity of Yarn the Pattern Calls For

—at the time you make your initial purchase, making sure it is the one dye lot. This will prevent a disappointment later on when you might find you could not exactly match the colour.

To Change Size

Read carefully the measurements given in the instructions then measure yourself to be sure the garment is your size. When enlarging a patterned garment be sure to add enough stitches for a complete pattern. When enlarging a plain garment multiply the stitches required for 1 inch by the number of inches necessary for the extra width. For a smaller size cast on as many less stitches as are required for 1 inch. Continue knitting in extra or lesser length to underarm, for armhole and for sleeves.

WASHING AND DRYING WOOLLEN GARMENTS

The beauty of your hand knit woollen garments can be easily retained after many washings, provided a few simple rules are followed.

Before washing, measure the garment and note measurements carefully.

Lukewarm Water and Good Suds

1. USE GOOD MILD SOAP OR SOAP FLAKES. Dissolve sufficient quantity to make good lukewarm suds.
2. Squeeze the suds gently through and through the garment until clean. Never rub a woollen garment. Keep the garment supported by hands when removing from water, because the weight of the wet garment may stretch the yarn.

Rinsing Twice to Remove All Soap

3. Rinse in clean, lukewarm water, gently squeezing to REMOVE ALL SOAP. Keep garment supported by hands when removing from water.
4. Rinse a second time in clean, lukewarm water making doubly sure to REMOVE ALL SOAP. Keep garment supported by hands when removing from water.

Remove All Moisture

5. Never let the garment lie wet, but remove all moisture at once by rolling in a clean, thick towel.

Dry Slowly on Flat Surface

6. Remove garment from towel, lay on a flat surface AWAY FROM HEAT. Pin to required measurements using rustless pins.

Remove all Soap. Remove all Moisture. After Washing Don't Hang Up — Dry Flat.

Wool and Silk Mixture

In case of woollen garments containing a thread of artificial silk, add a little vinegar to the second rinsing water.

Plain and Fancy Patterned Socks

Follow the same instructions. In the case of fancy patterns with various colours of wool add a little vinegar to the second rinsing water. Put on wooden stretchers. DO NOT HANG UP—dry on a flat surface.

Patonised Wools

To ensure the fullest benefit of increased wearing properties, it is recommended that these washing instructions be followed for garments knitted from PATONISED Shrink-resist yarns.

It is absolutely wrong to put woollen garments to soak: to use strong soap, soda, boiling—or even very hot—water, (or in the case of white garments especially, a dirty sud!), to let them lie in a wet state, or to hang them up to dry.
